

§ 995.26

shall, as far as practicable, insure objectivity and impartiality in the audit process.

(8) CEVAD shall ensure that actions are taken without undue delay to eliminate detected non-conformities and their causes. Follow-up activities shall include the verification of the actions taken and the reporting of verification results.

(b) [Reserved]

§ 995.26 Conversion of NOAA ENC® files to other formats.

(a) *Conversion of NOAA ENC files to other formats*—(1) *Content*. CEVAD may provide NOAA ENC data in forms other than that provided by NOAA. However, CEVAD shall not change the information content provided by the NOAA ENC. This means that all features and their associated attribution must be preserved in the CEVADs data files without degradation to positional accuracy or informational content.

(2) *Software certification*. Conversion of NOAA ENC data to other formats must be accomplished within the constraints of IHO Technical Resolution A3.11: “ENC/SENC Distribution Option” (incorporated by reference, see § 995.2)—in particular, paragraph three:

Distributors who are to supply the SENC service must operate under the regulations of the issuing authority. The onshore ENC to SENC conversion must be performed using type-approved software.

(3) *Error reporting*. Any errors detected during the conversion process shall be logged and investigated prior to releasing the data in which the errors occurred. Any errors that apparently originate in the NOAA ENC files shall be immediately reported to NOAA.

(4) *Format check*. CEVAD shall ensure that the converted data conforms to the CEVAD’s own format specifications and shall test load the converted data to ensure that it will correctly load and display on the intended equipment.

(b) [Reserved]

§ 995.27 Format validation software testing.

Tests shall be performed verifying, as far as reasonable and practicable, that CEVAD’s data testing software per-

15 CFR Ch. IX (1–1–09 Edition)

forms the checks, as specified by CEVAD, for verifying that the converted data conforms to its own proprietary product specification. These tests may be combined with testing of the conversion software.

§ 995.28 Use of NOAA emblem.

(a) Permission for the use of the NOAA emblem must be obtained by formally requesting such permission from NOAA and the Department of Commerce through NOAA’s Office of Coast Survey.

(b) Use of the NOAA emblem must satisfy an interest of the Department; the use may not result in embarrassment to the Department; there must be no conflict with any trademark rights, as stated in § 995.24(a)(4)(ii) and (b)(3)(ii); and there can be no endorsement or favoritism toward the distributor or value added distributor using the emblem, or other appearance of impropriety.

(c) Certification under this part does not automatically grant the distributor or value added distributor the right to use the NOAA logo. Use of the NOAA logo without express permission from NOAA and the Department of Commerce will be considered grounds for denial of an application for certification or termination of certification.

(d) *Emblem use by certified distributors or certified value added distributors of NOAA electronic products*. (1) After receiving separate, written permission from NOAA and the Department of Commerce as described in paragraph (a) of this section, a CED or CEVAD may use the NOAA emblem in product labeling and advertising materials, but only in conjunction with the phrase “Certified NOAA ENC Distributor” or “Certified NOAA ENC Value Added Distributor,” as applicable, and only after receiving separate, written permission from NOAA and the Department of Commerce as described in paragraph (d)(2) of this section.

(2) If the NOAA emblem is used with products that include other data, clear indication must be provided to the customer indicating that the emblem and the phrase “Certified NOAA ENC Distributor” or “Certified NOAA ENC Value Added Distributor” does not apply to the entire product delivered.
